An appeal... "We must face facts, and the only means of facing them truly, is by adopting a scientific attitude towards them. In the mind of the present generation Science has come to dominate the field of education. "Resolve every one of you that you will give your best, through your best work, not only to furthering of your individual interest which of course is natural, but also to the great community of which you are a unit."

Shri Sayajirao Gaekwad III.

Those who have given their best.....
